## Work Experience

**2021 June – Present**

**SiteMinder Ltd, Sydney, Australia – [www.siteminder.com](http://www.siteminder.com)**

Working as a **Mobile Technical Lead**. Leading and managing a team of 8 engineers consisting of Android, iOS, and Backend Engineers building and maintaining Native Android and iOS Products.

### Skills and Responsibilities:

- Formed the first Mobile Development Team at SiteMinder. Responsibilities include recruitment, architecture design, development, delivery, process automation, and people management.
- Tech Leads are also line managers of all the engineers on their team, which includes leading, mentoring, and ensuring the team grows in technical ability and maintaining team morale.
- Daily activities include close collaboration with product, design, and other infrastructure teams.

### Projects led:

- **Little Hotelier Mobile Apps and Backend**
- **SiteMinder Platform Mobile Apps and Backend**

**2018 August – 2021 June [2 years 11 months]**

**Terem Technologies, Sydney, Australia – [www.terem.tech](http://www.terem.tech)**

Worked as an **Android Technical Lead** and **Senior Software Engineer**.

### Projects with role:

- **Qantas Wellbeing Android App:** Mobile Technical Lead (**Play store:** Qantas Wellbeing)
- **Qantas Money Android App:** Senior Android Engineer (**Play store:** Qantas Money)
- **Standards Australia e-shop:** Backend Developer (.NET Core, PostgreSQL)
- **Terem Processes Automation:** Backend Developer (AWS Serverless, Node.js, REACT, DynamoDB)

**2017 August – 2018 August [1 year]**

**AR Tech (formerly: Thred Limited), Surry Hills, Sydney, Australia - [artechglobal.com.au](http://artechglobal.com.au)**

Worked as a native **Android Developer** for an Augmented Reality focused startup.

### Skills and Responsibilities:

- **Languages:** Android (Java, Kotlin)

- **Augmented Reality:** Research and implement different AR frameworks: ARCore, OpenGL, Vuforia
- Projects and Achievements:**
- **Vivid Sydney 2018:** Reskinned the old app and built an Augmented Reality feature in ARCore and OpenGL for the 2018 event using geo locations to place 3D objects (**Play store:** Vivid Sydney)
  - **Sweep Android:** Social media app with real time messaging, geo-locked chats, and an Augmented Reality gameplay built in Unity Vuforia (**Play store:** Sweep the app)
  - **Thred IR:** Investor Relations app with AR demo module integrated.

**2014 June – 2017 June [3 years]**

**Maavan Software, Lahore, Pakistan - [www.maavan.com](http://www.maavan.com)**

Worked as a **Senior Software Engineer and Team Lead.**

**Skills and Responsibilities:**

- **Languages:** Android (Java), PHP, MySQL, JavaScript, jQuery, HTML, CSS/3
- **Project Management:** Sprint Planning, Task Assignments, Estimations, ensuring timely delivery.

**Projects and Achievements:**

- **know.careers:** Career Fair management Android app (**Play store:** know.careers)
- **Buckets:** Finance Management Android App (contact for demo)
- **SkinDoctors:** Magento e-commerce website ([www.skindoctors.com.au](http://www.skindoctors.com.au))
- **The Mileage Club:** **CodeIgniter** and **Wordpress** based website ([www.themileageclub.com](http://www.themileageclub.com))

**2013 November – 2014 June [7 months]**
